PRACTICE

THERE IS SPACE FOR EVERYONE

It's been a while since we all met in person. But, that doesn't mean our work has stopped.

In fact, so many of us have pivoted and learned new ways of building partnerships and serving our communities.

This is why we created e-space. A virtual way to share what you've learned and things you've tried.

WHAT WOULD YOU SHARE OVER COFFEE? MAKING PEER SHARING EASY

Many leaders have shared the desire to dig deeper into learning shared from the Ecosystem to Ecosystem - or E2E - workshops at the SLECoP convenings.

This is our chance to do that!

By sharing what you are learning, in a concise, virtual manner, we can encourage other leaders to watch and implement within their own communities.

Then, we can re-convene and discuss, in smaller virtual groups, our learning from the implementation of new ideas.

WHEN

We hope to have many courses submitted by mid-June. We can take the summer to learn at our own pace and dive deeper.

HELPFUL GUIDELINES FOR SHARING

Learning Objectives & Outcomes

What should leaders expect to learn.

Introduction

A brief introduction that will help your peers understand what you will be sharing.

Invite them in!

Audio / Video

Describe what you've learned, share your story, failures and any helpful tips.
(recommended 20 min. max)

Relevant Links

Supplemental Documents

This can be decks, templates, questions to consider, etc. to help leaders implement new ideas within their communities

Contact Information

How can peers stay in touch or ask questions?

Tip: Don't overthink this. You have something valuable to share.

Use your existing work.
